

RAKESH KUMAR DEY

Frontend Developer

Bardhaman, West Bengal | 7001584784 | rakesh.coding.007@gmail.com

[GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [LeetCode](#) | [Codepen](#)

PROFILE

Frontend Developer skilled in React, JavaScript, and UI/UX. Builds responsive, optimized web apps with hands-on experience in REST APIs and state management. Currently learning backend and DSA in C++ to enhance full-stack development capability.

PROJECTS & EXPERIENCE

Learnify — Learning Platform (React, Tailwind, APIs) ([Live Demo](#))

Learnify helps users learn easily by providing quality study resources like YouTube videos and documentations, daily progress tracking, and AI-based doubt solving. Integrated YouTube API for resources and Gemini API for AI support.

QR Code Generator & Designer — (React, Tailwind) ([Live Demo](#))

A web tool that generates custom QR codes with styling options. Users can design, preview, and download QR codes instantly with a simple and responsive user experience.

Chess Game — JavaScript Project ([Live Demo](#))

Built a browser-based chess game to improve JavaScript logic skills. Includes move validation, UI interactions and smooth board updates for better user experience.

NPM Package — [@rakeshdey/tiny-utils](#) ([Live Demo](#))

A lightweight JavaScript utility package containing helpful functions for everyday development tasks. Designed to simplify common operations and improve overall development speed.

EDUCATION

ABS Academy of Science Technology & Management (MAKAUT), Durgapur

➤ Bachelor of Computer Applications (BCA)
